

AFA El Plantío

Asociación de Familias
del Colegio

Family School
Association

Dear families:

Through this letter, we want to inform you of the new launch of the El Plantío International School Family Association, in which we have been working with the School for two years to improve communication and relationships between families and the management team.

We are already prepared for the next academic year 2024-2025 and we would like to open the Association to all families who want to be part of this project.

Within the objectives of the Association we would like to highlight the following:

*Collaborate in the educational activities of the centre.

*Organize complementary training activities for the benefit of families and students (support classes, workshops on topics related to banking education, first aid, social networks...).

*Periodically transfer to the management team the suggestions, concerns and information that families want to communicate to the school directly, without delays to find quick and effective solutions.

If you are interested in participating, the main requirement is to be a parent or guardian of a student at the School, send us an e-mail and we will send you back the registration form to complete and pay an annual fee of 40 euros per family.

Thanks for your interest.

A cordial greeting.

Board of Directors
A.F.A.EL PLANTIO ISV
